(See Price List).

Every possible precaution is taken to prevent errors and to ensure that our trees are true to name and label and that same are free from pests or disease at the time of despatch, but it is impossible to give any guarantee, express or implied, in regard to any or all of the above statements. It is therefore stipulated that the following are express terms of every contract for the sale of trees:—

(c) In cases of orders booked for delivery more than three months ahead no liability will rest upon us in the event of failure to effect delivery on the agreed-upon date if such failure be caused by the trees failing to grow to standard size owing to adverse weather or other conditions or upon their delivery having being rendered impossible or impracticable for any other reason.

Our Nurseries are annually inspected by the Government and before despatch of any trees all reasonably possible steps are taken by us to ensure that same are free from all pests or disease. All trees at the time of leaving our premises are believed to be healthy and free from crown gall, pests or other diseases.

H. E. V. Pickstone & Bro., Ltd.

P. O. SIMONDIUM, CAPE PROVINCE.

1943 Catalogue of Fruit Trees and Vines.

TERMS AND CONDITIONS OF SALE.

We have much pleasure in presenting you with our **Forty-ninth Annual Catalogue of Fruit Trees and Vines**, and avail ourselves of the opportunity to thank our customers for the support accorded to us during the last forty-eight seasons, and we shall do our best to merit a continuance of their favour and recommendation. We spare no pains and expense to produce trees and vines of the highest possible quality.

We regret this Catalogue is smaller than usual, but the scarcity of paper owing to war conditions, is responsible.

We do not sell Cheap Trees. In the long run they invariably prove dear to the purchaser. Our Prices are reasonable, and all care is exercised in the selection of buds and scions. We have the retention of our good name always before us. A saving of a few pence per tree now may be bitterly regretted a few years hence. — Prices are clearly stated elsewhere on this folder.

Packing is carefully done for transmission to any part of the world. A moderate charge is made. (Full particulars under heading "Packing Charges").

Orders are accepted in terms of our Conditions of Sale (see Order Form) at any time for execution from 20th June to 15th September. Citrus trees can be supplied at practically any time. Small Orders are welcomed, and receive the same care and attention as large ones.

Alterations or delays to orders cannot be accepted later than ten days prior to date of despatch.

Cancellation of orders booked definitely cannot be accepted except in cases of extreme necessity.

Mistakes or errors should be notified to us immediately, and same will at once be rectified, in terms of our Conditions of Sale. Our aim is to satisfy you.

Complaints of any kind should also be made immediately to enable us to have an opportunity of looking into the matter.

Responsibility for delay or loss. We must emphasize the fact that all orders are at the risk of the purchaser after being put on rail. We must not be held responsible for any loss or delay that may occur through the negligence of the forwarders, or for failure of any trees after being planted, as it must be recognised that once the trees have been placed on rail, well packed and in good condition, they are entirely beyond our control.

Substitution. Please answer questions on Order Form, and if no substitution is desired, please say so.

Selection of Varieties can be left to us if desired. We are acquainted with the various districts and may be able to help you. Your confidence will not be misplaced.

Full Instructions for Planting accompany the dispatch of each order.

Terms. Nett Cash on receipt of consignment. Interest at the rate of 6% will be charged on all accounts not paid within three months of Invoice date.

All trees and vines are fumigated before dispatch in accordance with Government regulations.

Visitors. Often we receive visits from Clients who wish to take their trees away with them. We must point out that this is often impossible as all trees must be fumigated before leaving the Nurseries and unless the trees are ordered beforehand, this means considerable delay.

Orders are acknowledged same day as received, and should you not hear from us within reasonable time, your letter or order must have gone astray.

GENERAL INFORMATION FOR CUSTOMERS.

TO CLIENTS IN RHODESIA.

Customs Forms accompany advice of dispatch, and must be presented to your Station when trees are called for.

We have full permits for the introduction of all our trees into Rhodesia.

TO CLIENTS IN KENYA, NYASALAND, TANGANYIKA, MOZAMBIQUE, Etc.

Permits to import must be obtained from the Directors of Agriculture at Nairobi, Zomba, Dar-es-Salaam, Lourenco-Marques or Beira, and forwarded to us with the orders. Trees for Kenya and Tanganyika are shipped from Cape Town and accounts for freight and shipping charges will be rendered by the following mail. Trees for Nyasaland can now be sent direct by Rail. Trees for Katanga are sent direct by rail and trees for Ruanda-Urundi by steamer to Dar-es-Salaam.

Owing to scarcity of shipping space, orders for Kenya and Tanganyika can only be sent by Parcels Post, until times become normal again.

FREE DELIVERY.

Orders for 50 or more trees or vines, no matter how many varieties or sizes, sent in one consignment, will be sent railage free to any railway station or railway road motor service station in the Union, including South West Africa, Swaziland and Lourenco Marques.

Rhodesian orders will also be sent carriage paid if 50 or more trees are ordered in one lot, but only to railway stations or sidings—not to road-motor stations—any railway station to the Congo Border and Beira.

All trees will be sent by goods train. If passenger train is desired, customers must pay the difference between the two rates.

Small Orders of Fruit Trees can be sent by Parcels Post quite satisfactorily.

50 or more trees or vines will be sent postage free by Agricultural Parcels Post within the Union, Basutoland and Swaziland only. All other postage must be paid by consignee.

For Parcels Post orders we naturally have to select the lighter trees, so that clients obtaining their trees by post must not expect to receive as large a tree, either in first or second sizes, as they would receive were the trees sent by rail. Parcels Post is very well suited for the transportation of small orders for Citrus trees.

RAILAGE.

Clients often hesitate to order our well-known trees, especially when resident at a great distance from our Nurseries, fearing the transport charges will be prohibitive. As noted in our Free Delivery Clause, railage is paid in the Union and neighbouring countries on orders for 50 or more trees. Less than this number, consignments are sent carriage forward. The approximate railage by goods train on an order of say 15 to 40 trees is only about 1/- to 1/6 to any place in the Union, and to Rhodesia and South West Africa probably 2/- to 5/-, dependent on distance.

INFORMATION REGARDING TREE SIZES.

The First Size Trees are over 3 ft. in height. The Second Size Trees are over 2 ft. in height. This means that in the stronger growing sorts the height is very much more. The stated sizes of 3 ft. and 2 ft. apply mainly to apples and pears. In the case of stone fruits and Citrus these sizes are usually very much exceeded. For example, the first size Citrus before topping would stand about 5 feet. In practice, our grading, following the example of the American Nurseries, is done more by girth than height. Habit of growth must also of course be taken into consideration. In a strong growing variety such as Grape Fruit, the first size would be of much greater girth than a weak growing variety such as Nartje. In the instance of Figs and Walnuts, the respective heights are usually considerably below the above measurements. Vines are strong and mainly worked on two year old roots. In the instance of two year old branched Pear and Apple trees, the heights may be less.
